**Central committee
Communist Party of Greece**

Dear comrades,

The New Communist Party of Britain sends its warmest fraternal greetings to our Greek comrades gathering to celebrate 95 years of struggle in defence of the Greek working class and the world communist movement.

The KKE took the lead in the fight against the fascists during the Second World War and in the struggle that followed against the royalists and their imperialist backers. The Greek communists led the resistance during the dark days of the military regime that mobilised the masses to bring down the junta and restore republican institutions.

Your Party has worked tirelessly to rebuild the world communist movement following the counter-revolutionary wave that brought down the Soviet Union and the people's democracies in eastern Europe. Your Party is leading the fight against the austerity programme that Franco-German imperialism has imposed throughout the European Union.

Our Party has built close links the KKE over the decades and we closely follow the fight-back that your comrades and the militant workers are leading in Greece. We stand together with your Party in upholding our common ideology of Marxism-Leninism and the eternal ideas of Marx, Engels, Lenin and Stalin.

The New Communist Party of Britain sends its warmest greetings to our Greek comrades. You are charting the course for a better tomorrow that will certainly come and like you we are certain that the 21st century will be the century of socialism.

All the best,

**Andy Brooks
General Secretary
New Communist Party of Britain**
