

Dear comrades in the KKE,

Communist Party in Denmark sends you our warmest greetings on the occasion of your 95 years anniversary.

We are well aware of the big role KKE has played and still are playing in the struggles of the Greek working class for socialism and communism.

We wish you and the Greek people all the best for the future.

Capitalism is the problem – socialism is the solution!

Comradely,
Communist Party in Denmark, KPID
Bo Moeller
