

# Sveriges Kommunistiska Parti

---

## *Comrades*

Due to the 95 year anniversary of Communist Party of Greece (KKE), the Communist Party of Sweden wants to convey its fraternal and solidarity Greetings on behalf of its members.

We are aware of that the history of KKE is filled with harsh struggle. During the course of its history, it has been standing at the forefront in the struggle for the cause of the working class regardless of that whether the opponent has been the domestic capitalism, fascist oppression or foreign occupation. KKE stands steadily and defends our common ideological foundation, Marxism- Leninism, despite heavy pressure.

We have said it before on several occasions and now when KKE celebrates its 95-year anniversary, we are obliged to repeat it. We strongly appreciate the work of KKE to strengthen the international communist movement after its weakening in connection with the counterrevolution in eastern Europe. During the course of its entire history, KKE has been practicing the proletarian internationalism in an exemplary manner.

The Communist Party of Sweden wishes KKE all kind of success in the continuing work for the cause of the working class and for Socialism.

Long live the friendship between our parties!

Long live the proletarian internationalism!

Long live the Socialism!
